

Agile Overview for Executives

Course Length: 1 day

Professional Development Units (PDUs): 7
(Ways of Working)

Program Knowledge Level: Intermediate

Field of Study: Business Management & Organization

Prerequisites: None

Advance Preparation: None

Benefits: Support executives who will be overseeing agile projects

Course Overview

This course is for both business and IT executives that are either taking over agile teams, or beginning the transition to using an agile framework for project delivery. The primary focus of the training is on the role that executives and management fill in agile project delivery. This training also provides an overview of the origins of agile, and highlights the major agile practices. The course is about 50% lecture and 50% discussion. No prior experience needed; this course can fit any skill level.

Key Outcomes

Upon completion of this course, participants will be able to:

- Review the high-level concepts and principles of Agile, Lean, and Scrum
- Understand the role of executives and managers leading teams on Agile projects
- Learn the keys to success
